

State Licensing Services...

Despite NAIC efforts to achieve greater uniformity and simplicity, the licensing process for insurance companies and other regulated entities remains a complex and time-consuming one. Whether your company is seeking to **expand to new states**, or seeking **additional lines of authority** to write new products in states where it is currently licensed, The Lawson Firm (TLF) has the knowledge and experience to help your company achieve its goals **faster, more efficiently** and at **less overall cost and burden** than is normally experienced by companies who choose to go it alone. TLF can help manage and expedite the application process from start to finish and, once your company is licensed, TLF can help your company to create the contracts, forms and procedures necessary to assure compliance in the new state or business line.
